# NGUYEN THI CAM HANG

# JUNIOR SOFTWARE DEVELOPER

#### **PROFILE**

Throughout my studies and work experience, I have accumulated skills in programming languages such as .Net and Java, and databases like PostgreSQL, SQL Server, and Oracle.

I am proficient in writing unit tests, using

I am proficient in writing unit tests, using Moq for mocking, and applying Agile-Scrum development processes. I am sociable and integrate quickly into teams, I can handle high pressure to meet deadlines.

I aspire to work long-term at a company to contribute to its growth and further enhance my professional skills.

## CONTACT

Date of Birth: 15/06/1997 Phone: 0837726522

Email: leehangnguyen078@gmail.com Address: Huong Lo 2, Binh Tri Dong A, Binh Tan District, Ho Chi Minh City.

#### **EDUCATION**

#### University of Economics and Finance (UEF)

(October 2015 - March 2019) Major: Information Systems

GPA: 3.1/4.0 Classification: Good

#### **WORK EXPERIENCE**

# Aureole Information Technology Co., Ltd. (September 2019 - January 2022)

- Participated in software development under team leader guidance.
- Performed conversion and feature development as required.
- Projects Participated:
- TALON: Developed system functions such as writing scripts and SQL queries (Visual Basic, SQL Server, TortoiseSVN).
- BSW SCM: Added new functions to the existing system (C#, SQL Server, TortoiseSVN).
- BusinessOne: Converted source code from C++ to C# Winform (C# Winform, SQL Server, TortoiseSVN).
- AFCP: Built and developed system functions based on the deployment team's design documents (C# Winform, TortoiseSVN).
- Skill-Matching: Developed a job search system for employers (Angular, Node.js, MongoDB, Git, SourceTree).
- VinaKyoei: Built and developed system functions according to design documents (Java, Git, SourceTree).
- POWEREGG, POWEREGG-ADDON: Developed system functions using Java EE and JSF (Java, Java EE 7, JSF, TortoiseGit).
- Chalaza Portal: Designed interfaces based on customer requirements (Java, JSF, TortoiseGit).

#### DiCentral Vietnam Co., Ltd. (March 2022 - February 2025)

- Participated in projects following the Scrum model.
- Wrote Unit Tests with Moq to ensure quality.
- Authored technical documents detailing developed functions. Projects Participated:
- MQS: Task, bug, backlog management application with progress tracking, file analysis, and automatic reporting (ASP.NET MVC, Angular, SQL Server, Git).
   IGap: Automatically analyzed gaps, comparing customer data with EDI standards
- to identify fields needing changes (ASP.NET MVC, SQL Server, Git).
- IMap: Automatically mapped data from customer formats (Excel, JSON, XML, CSV) to EDI standards (ASP.NET MVC, SQL Server, Git).
- ToolMap: Managed, compared, copied, and updated files/folders across environments using templates and input parameters (ASP.NET MVC, Angular, SQL Server, Git).
- DiUniteMapToERPSchema: Analyzed and converted input data into CSV files (.NET 6, Clean Architecture, SQL Server, Git).
- AssetsModule: Analyzed and exported CSV files from various input files, supporting file downloads (.NET 8, Clean Architecture, MediatR, Dapper, SQL Server, Git).

### **SKILLS**

Web and Application Development: Full Stack Developer Languages:

- English (Reading & Technical Writing: 70%)
- English (Listening & Speaking: 50%)
  Programming:
- Backend: 3 years of experience with C#, .NET (.NET Core, .NET Framework, ASP.NET MVC, REST API, LINQ).
- Frontend: 2 years of experience with Angular, TypeScript.
- Database: 2 years of experience with SQL Server, PostgreSQL.
- Other Languages: 2 years of experience with JavaScript.

Tools and Version Control: Git, Azure DevOps.

- Understand and apply knowledge of OOP, SOLID, Design Patterns to real projects.
- Effective collaboration in Agile-Scrum teams.
- Learn and adapt to new technologies and programming languages.
